# SHREYAS NALAWADE

**Full Stack Developer | Java | Spring Boot | Laravel | React**

Mumbai, Maharashtra, India | shreyashnalawade09@gmail.com | linkedin.com/in/shreyas-s-nalawade-234340283
github.com/ShreyasNalawade | shreyas.ssngo.shop

## PROFESSIONAL SUMMARY

Full Stack Developer with production experience building high-scale CPaaS messaging platforms and digital signage systems used by millions of end users. Skilled in Java, Spring Boot, Laravel/PHP, React, JavaScript, MySQL/MariaDB, MongoDB, Redis, and Kafka. At Insign Technology, worked with the team on enterprise SMS/RCS/WhatsApp/Voice/Email campaigns, IP-TV device networks, REST APIs, queues, and performance-focused reporting.

## TECHNICAL SKILLS

| | |
|---|---|
| **Languages:** | Java, JavaScript, PHP 8.2, SQL, HTML5, CSS3 |
| **Backend:** | Laravel, Spring Boot, REST APIs, Webhooks, Queue Jobs (Horizon), JDBC, Hibernate |
| **Frontend:** | React.js, JavaScript, Blade, Vite, Tailwind CSS, jQuery |
| **Databases:** | MySQL, MariaDB, MongoDB, Redis, Oracle SQL |
| **Messaging:** | Kafka, Redis, SMPP/Kannel, WhatsApp Cloud API, RCS, SMTP |
| **Tools:** | Git, GitHub Actions, Linux/VPS, Laravel Sanctum, Telescope, Postman |

## PROFESSIONAL EXPERIENCE

**Software Engineer — Insign Technology Pvt Ltd** **Mar 2025 – Present**

*Mumbai, Maharashtra | Full Stack Development (CPaaS, Digital Signage & Business Systems)*

- Multichannel CPaaS Platform — Built scalable SMS/RCS/WhatsApp/Voice/Email campaign system in Laravel with Kannel gateway integration, Redis/Kafka pipelines, and million-row report generation serving millions of users.
- IP TV / Digital Signage Platform — Developed Laravel-based campaign management for multi-outlet Android TV networks with device APIs, playlist scheduling, RBAC, and analytics reporting.
- Developed and maintained SaaS CRM and business applications using Laravel, React.js, Java, and MySQL for advertising and SMB clients.
- Delivered Smart Inventory & Finance Manager, Dental Clinic Management System, and supporting REST APIs with CI/CD deployment on Linux/VPS.
- Collaborated with the team and clients on requirements, iterative releases, dashboards, and production monitoring.

## PROJECTS

**Multichannel Messaging Platform (CPaaS) — SMS, RCS, WhatsApp, Voice & Email**

*PHP 8.2 · Laravel · MySQL/MariaDB · Redis · Kafka · Horizon · SMPP/Kannel · WhatsApp Cloud API · REST APIs · Webhooks · Blade/Vite/Tailwind*

- Built and maintained a production multichannel communication platform for bulk campaigns, delivery tracking, billing, and admin ops across SMS, RCS, WhatsApp, Voice, and Email — used by millions of users.
- Developed end-to-end campaign and reporting flows with role-based access (admin / reseller / user).
- Integrated Kannel SMS gateway (SMPP) — vendor management, route assignment, DLR handling, and live gateway monitoring.
- Designed large-scale report downloads (millions of rows) using queued jobs, chunked CSV generation, and ZIP packaging.
- Built high-throughput voting/ingestion features with Redis validation, DB partitioning, and Kafka-ready processing for tens of millions of records.
- Implemented WhatsApp automation/workflow builder, live chat, webhooks, campaign analytics, and optimized EOD MIS dashboards with caching.

**IP TV / Digital Signage Campaign Platform**

*Laravel 12 · PHP 8.2 · MySQL · Laravel Sanctum · REST APIs · Blade*

- Designed and developed an end-to-end campaign management system for multi-outlet digital signage (users, outlets, devices, media, campaigns, reports).
- Implemented secure device onboarding (PIN-based registration), real-time heartbeats, and campaign sync via REST APIs for Android TV clients.
- Built advanced campaign scheduling (playlist + timeline segments), media deduplication, and device-level runtime tracking.
- Delivered role-based access (Admin / User / Viewer / Reseller) and campaign performance reports (summary + detailed analytics).

**Smart Inventory Management System**

*Laravel (Blade), PHP, MySQL | github.com/ShreyasNalawade/Sn_Inventory*

- Developed inventory workflows for stock tracking, billing status, ledger/income, and operational reporting.

**Live Chat Application (Real-Time Messaging)**

*Laravel, WebSockets, Broadcasting Events | github.com/ShreyasNalawade/LiveChatApp-laravel-websocket*

- Built a real-time messaging app using Laravel WebSockets and event broadcasting for instant chat updates.

**Dukandari.ai — AI Marketing Platform (Frontend)**

*HTML5, CSS3, JavaScript, GSAP | dukandari.ai*

- Created a conversion-focused SaaS landing page showcasing multi-channel marketing automation.

**Sharashri — Folk Art & Culture Website**

*HTML5, CSS3, Tailwind CSS, JavaScript | sharashri.online*

- Built a responsive cultural showcase site with Marathi typography, event/gallery sections, and storytelling layout.

## EDUCATION

**Bachelor of Engineering (B.E.), Mechanical Engineering** **2021 – 2024**

Smt. Indira Gandhi College of Engineering (Mumbai University), Navi Mumbai — CGPA: 7.32

**Diploma in Mechanical Engineering** **2018 – 2021**

Government Polytechnic Mumbai — 76.40%

## CERTIFICATIONS & TRAINING

**Java Full Stack Development — QSpiders** **Completed**

- Core Java (OOP, Collections, Exception Handling), JDBC, Servlets, JSP, Hibernate, SQL (Oracle), HTML, CSS, JavaScript.

## ACHIEVEMENTS

- Contributed to production CPaaS and IP-TV platforms serving millions of users with high-volume messaging, device sync, and analytics.
- Built million-row reporting pipelines and Redis/Kafka-ready ingestion flows for large-scale campaign and voting workloads.
- Transitioned from Mechanical Engineering into Full Stack Development through structured Java training and production project delivery.
- Delivered client-facing systems across messaging, digital signage, healthcare, inventory, and marketing domains with team collaboration.
