github.com/ShreyasNalawade | shreyas.ssngo.shop

PROFESSIONAL SUMMARY

Full Stack Developer with production experience building high-scale CPaaS platforms, digital signage systems, and SaaS partner portals used by millions of end users. Skilled in Java, Spring Boot, Laravel/PHP, React, JavaScript, MySQL/MariaDB, MongoDB, Redis, and Kafka. At Insign Technology, worked with the team on SMS/RCS/WhatsApp/Voice/Email campaigns, IP-TV networks, payments, AI tooling, REST APIs, and scalable reporting.

TECHNICAL SKILLS

Languages:	Java, JavaScript, PHP 8.2, SQL, HTML5, CSS3
Backend:	Laravel, Spring Boot, REST APIs, Webhooks, Queue Jobs (Horizon), JDBC, Hibernate
Frontend:	React.js, JavaScript, Blade, Vite, Tailwind CSS, jQuery
Databases:	MySQL, MariaDB, MongoDB, Redis, Oracle SQL
Integrations:	Kafka, SMPP/Kannel, WhatsApp Cloud API, RCS, Razorpay, Google Business, SMTP
Tools:	Git, GitHub Actions, Linux/VPS, Laravel Sanctum, DomPDF, Telescope, Postman

PROFESSIONAL EXPERIENCE

Software Engineer — Insign Technology Pvt Ltd **Mar 2025 – Present**

Mumbai, Maharashtra | Full Stack Development (CPaaS, Digital Signage & SaaS Platforms)

- Multichannel CPaaS — Built scalable SMS/RCS/WhatsApp/Voice/Email campaign system in Laravel with Kannel, Redis/Kafka pipelines, and million-row reporting for millions of users.
- IP TV Platform — Developed digital signage campaign management for multi-outlet Android TV networks with device APIs, playlist scheduling, RBAC, and analytics.
- Dukandari Partners — Built multi-tenant partner/admin portal with Razorpay billing, AI usage monitoring, Google Business outlets, and AI voice-agent support.
- Delivered inventory, clinic CRM, and supporting REST APIs; collaborated with team on releases, dashboards, and production monitoring.

PROJECTS

Multichannel Messaging Platform (CPaaS) — SMS, RCS, WhatsApp, Voice & Email

PHP 8.2 · Laravel · MySQL/MariaDB · Redis · Kafka · Horizon · SMPP/Kannel · WhatsApp Cloud API · REST APIs · Blade/Vite/Tailwind

- Built production multichannel platform for bulk campaigns, delivery tracking, billing, and admin ops across SMS, RCS, WhatsApp, Voice, and Email for millions of users.
- Integrated Kannel SMS gateway (SMPP) with vendor/route management, DLR handling, and live gateway monitoring; RBAC for admin/reseller/user.
- Designed million-row report downloads using queued jobs, chunked CSV generation, and ZIP packaging to avoid timeouts.
- Built Redis/Kafka-ready high-throughput ingestion, WhatsApp workflow/live chat/webhooks, and optimized EOD MIS dashboards with caching.

IP TV / Digital Signage Campaign Platform

Laravel 12 · PHP 8.2 · MySQL · Laravel Sanctum · REST APIs · Blade

- Designed end-to-end campaign management for multi-outlet digital signage (users, outlets, devices, media, campaigns, reports).
- Implemented PIN-based device onboarding, real-time heartbeats, and campaign sync APIs for Android TV clients.
- Built playlist/timeline scheduling, media deduplication, and device-level runtime tracking.
- Delivered RBAC (Admin/User/Viewer/Reseller) and campaign performance reports (summary + detailed analytics).

Dukandari Partners — Multi-Tenant Partner & Admin Platform

Laravel 12 · PHP 8.2 · MySQL · Blade · Tailwind · Vite · Razorpay · DomPDF · Queues

- Developed multi-role admin/partner dashboard for partner hierarchy, merchant onboarding, attributions, and account lifecycle management.
- Integrated Razorpay for subscriptions, plan upgrades, wallet/credit top-ups, CSV export, and transaction analytics.
- Built AI operations tooling (credentials, token/cost dashboards, request logs) and AI voice-agent call workflows with transcripts/recordings.
- Added Google Business Profile outlet audits, Facebook permission sync, PDF invoicing (DomPDF), and OTP-based secure login.

Smart Inventory Management System

Laravel (Blade), PHP, MySQL | github.com/ShreyasNalawade/Sn_Inventory

- Built inventory workflows for daily stock intake, paid/unpaid bill tracking, and ledger/income records.
- Implemented credit interest calculations and operational reporting for market business use.
- Designed MySQL schema and Blade admin screens for day-to-day business operations.

Live Chat Application (Real-Time Messaging)

Laravel, WebSockets, Broadcasting Events | github.com/ShreyasNalawade/LiveChatApp-laravel-websocket

- Built real-time messaging using Laravel WebSockets and event broadcasting for instant chat updates.
- Implemented chat rooms, presence-style updates, and message delivery over websocket channels.
- Structured backend events/listeners for scalable real-time communication features.

Dukandari.ai — AI Marketing Landing Page

HTML5, CSS3, JavaScript, GSAP | dukandari.ai

- Created conversion-focused SaaS landing page for AI marketing automation across Google, Facebook, Instagram, and WhatsApp.
- Built animated hero, pricing, and testimonial sections with responsive layout.
- Showcased multi-channel integration flows to support product marketing and lead capture.

Sharashri — Folk Art & Culture Website

HTML5, CSS3, Tailwind CSS, JavaScript | sharashri.online

- Built responsive cultural showcase site with heritage storytelling layout and Marathi typography.
- Implemented event and gallery sections for folk-art content presentation.
- Delivered mobile-friendly UI with modern CSS and accessible navigation.

EDUCATION

Bachelor of Engineering (B.E.), Mechanical Engineering — **2021 – 2024**

Smt. Indira Gandhi College of Engineering (Mumbai University), Navi Mumbai — CGPA: 7.32

Diploma in Mechanical Engineering — **2018 – 2021**

Government Polytechnic Mumbai — 76.40%

SSC (10th Standard) — **2018**

Maharashtra State Board — 85.60%

CERTIFICATIONS & TRAINING

Java Full Stack Development — QSpiders — **Completed**

- Core Java (OOP, Collections, Exception Handling), JDBC, Servlets, JSP, Hibernate, SQL (Oracle), HTML, CSS, JavaScript.

ACHIEVEMENTS

- Contributed to production CPaaS and IP-TV platforms serving millions of users with high-volume messaging, device sync, and analytics.
- Built million-row reporting pipelines and Redis/Kafka-ready ingestion for large-scale campaign workloads.
- Delivered Laravel + payments + AI integrations (Razorpay, voice-agent, usage analytics) across partner SaaS operations.
