PROFESSIONAL SUMMARY

Results-driven Full Stack Developer with 1.5+ years of production experience delivering CPaaS, digital signage, and SaaS platforms serving millions of users. Built high-throughput messaging, device sync, payment, and AI features using Java, Spring Boot, Laravel/PHP, React, MySQL/MariaDB, MongoDB, Redis, and Kafka. Hands-on with Linux VPS administration, networking (SSH, DNS, Firewall), Nginx/Apache deployments, GitHub Actions CI/CD, and performance-focused REST APIs.

TECHNICAL SKILLS

Languages:	Java, JavaScript, PHP 8.2, SQL, HTML5, CSS3, Bash basics
Backend:	Laravel, Spring Boot, REST APIs, Webhooks, Horizon Queues, JDBC, Hibernate, OOP, SDLC
Frontend:	React.js, Blade, Vite, Tailwind CSS, jQuery, Responsive UI
Databases:	MySQL, MariaDB, MongoDB, Redis, Oracle SQL, Query Optimization
Integrations:	Kafka, SMPP/Kannel, WhatsApp Cloud API, RCS, Razorpay, Google Business, SMTP, WebSockets
DevOps / Infra:	Linux (Ubuntu), VPS Admin, Networking (TCP/IP, SSH, DNS, Firewall), Nginx, Apache, GitHub Actions CI/CD, Git, Postman
Soft Skills:	Problem Solving, Team Collaboration, Requirement Analysis, Client Communication, Agile Delivery

PROFESSIONAL EXPERIENCE

Software Engineer — Insign Technology Pvt Ltd **Mar 2025 – Present**

Mumbai, Maharashtra | Full Stack Development (CPaaS, Digital Signage & SaaS Platforms)

- Multichannel CPaaS — Built Laravel SMS/RCS/WhatsApp/Voice/Email campaign platform with Kannel + Redis/Kafka pipelines; supported millions of end users and million-row reporting without timeouts.
- IP TV Platform — Developed digital signage system managing 1,000+ Android TV devices with device APIs, playlist scheduling, RBAC, and analytics across multi-outlet networks.
- Dukandari Partners — Delivered multi-tenant partner portal with Razorpay billing, AI usage/cost tracking, Google Business outlets, and AI voice-agent call support.
- Deployed and maintained production apps on Linux VPS (Nginx/Apache, SSH, firewall rules, DNS); automated CI/CD with GitHub Actions and reduced release effort for team deployments.

PROJECTS

Multichannel Messaging Platform (CPaaS) — SMS, RCS, WhatsApp, Voice & Email

PHP 8.2 · Laravel · MySQL/MariaDB · Redis · Kafka · Horizon · SMPP/Kannel · WhatsApp Cloud API · Linux VPS · REST APIs

- Built production CPaaS serving millions of users for bulk campaigns, DLR tracking, billing, and admin ops across 5 channels (SMS, RCS, WhatsApp, Voice, Email).
- Integrated Kannel SMS gateway (SMPP) with vendor/route management and live monitoring; implemented RBAC for admin/reseller/user roles.
- Designed queued report downloads for millions of rows (chunked CSV + ZIP), cutting memory failures/timeouts during large exports.
- Built Redis/Kafka-ready ingestion handling tens of millions of records; optimized EOD MIS dashboards with caching for faster reporting.

IP TV / Digital Signage Campaign Platform

Laravel 12 · PHP 8.2 · MySQL · Laravel Sanctum · REST APIs · Blade · Device Networking

- Designed end-to-end campaign platform for multi-outlet digital signage covering users, outlets, devices, media, campaigns, and reports.
- Implemented PIN onboarding, heartbeat monitoring, and REST sync for 1,000+ Android TV clients with reliable device-server networking.
- Built playlist/timeline scheduling and runtime tracking; delivered RBAC (Admin/User/Viewer/Reseller) with summary + detailed analytics.
- Improved campaign delivery visibility through device-level status reporting and performance dashboards for operations teams.

Dukandari Partners — Multi-Tenant Partner & Admin Platform

Laravel 12 · PHP 8.2 · MySQL · Blade · Tailwind · Vite · Razorpay · DomPDF · Queues

- Built multi-role partner dashboard for merchant onboarding, attributions, and full account lifecycle management.

- Integrated Razorpay subscriptions, plan upgrades, and wallet/credit top-ups with CSV export and transaction analytics.
- Delivered AI token/cost dashboards, voice-agent call initiate/hangup with transcripts/recordings, and DomPDF invoicing + OTP login.
- Added Google Business outlet audits and Facebook permission sync for connected merchant accounts.

Smart Inventory Management System

Laravel (Blade), PHP, MySQL | github.com/ShreyasNalawade/Sn_Inventory

- Built inventory workflows for stock intake, paid/unpaid billing, ledger/income tracking, and credit interest calculations.
- Designed MySQL schema and Blade admin UI that reduced manual spreadsheet effort for day-to-day market operations.
- Added operational reports to improve payment visibility and daily income tracking accuracy.

Live Chat Application (Real-Time Messaging)

Laravel, WebSockets, Broadcasting Events | github.com/ShreyasNalawade/LiveChatApp-laravel-websocket

- Built real-time chat with Laravel WebSockets/event broadcasting for instant message delivery.
- Implemented chat rooms and presence-style updates over websocket channels for multi-user conversations.
- Structured events/listeners for maintainable, scalable real-time communication features.

Dukandari.ai — AI Marketing Landing Page

HTML5, CSS3, JavaScript, GSAP | dukandari.ai

- Created conversion-focused SaaS landing page for AI marketing across Google, Facebook, Instagram, and WhatsApp.
- Built animated hero, pricing, and testimonials with responsive UI to support lead capture.
- Showcased multi-channel integration flows for product marketing and onboarding clarity.

Sharashri — Folk Art & Culture Website

HTML5, CSS3, Tailwind CSS, JavaScript | sharashri.online

- Built responsive cultural showcase with Marathi typography, event, and gallery sections.
- Delivered mobile-friendly UI with accessible navigation for heritage storytelling content.
- Optimized layout and assets for fast loading on desktop and mobile devices.

EDUCATION

Bachelor of Engineering (B.E.), Mechanical Engineering — **2021 – 2024**

Smt. Indira Gandhi College of Engineering (Mumbai University), Navi Mumbai — CGPA: 7.32

Diploma in Mechanical Engineering — **2018 – 2021**

Government Polytechnic Mumbai — 76.40%

SSC (10th Standard) — **2018**

Maharashtra State Board — 85.60%

CERTIFICATIONS & TRAINING

Java Full Stack Development — QSpiders — **Completed**

- Core Java (OOP, Collections, Exception Handling), JDBC, Servlets, JSP, Hibernate, SQL (Oracle), HTML, CSS, JavaScript.

ACHIEVEMENTS

- Supported production platforms used by millions of users and 1,000+ active Android TV devices with high-volume messaging and device sync.
- Built million-row reporting and Redis/Kafka-ready ingestion for tens of millions of records with improved export reliability.
- Managed Linux VPS deployments (Nginx/Apache, SSH, DNS, firewall) and CI/CD pipelines for faster, safer production releases.
- Delivered Laravel + Razorpay + AI integrations that improved partner billing visibility and AI usage/cost tracking.
